

WHAT IS CLAIMED IS:

1. A method for settling a parking citation, comprising the steps of:

providing an on-line parking citation interface to a
5 user;

connecting said on-line parking citation interface to a receiving application for receiving a predetermined minimal set of information relating to a parking citation;

connecting said receiving application to a polling
10 application for interfacing with a parking citation issuing authority;

communicating said predetermined minimal set of information with said parking citation issuing authority in an information protocol usable by said parking citation issuing
15 authority;

identifying a parking citation from said parking citation issuing authority associated with said minimal set of information; and

electronically transferring funds at the direction of
20 the user from a predetermined electronic funds source to an electronic account associated with said parking citation issuing authority for settling said parking citation.

2. The method of Claim 1, further comprising the step
25 of directing settlement instructions from the user to a financial institution associated with said electronic funds source for processing approval to electronically transfer funds from said predetermined electronic funds source to said

electronic account associated with said parking citation
issuing authority.

3. The method of Claim 1, further comprising the step
5 of selecting said information protocols from a set of
information protocols associated with said polling
application.

4. The method of Claim 1, further comprising the step
10 of permitting the user to unsuccessfully attempt said step of
electronically transferring funds not more than a
predetermined number of times.

5. The method of Claim 1, further comprising the step
15 of enabling a user to perform credit card processing
authorization of credit and debit cards.

6. The method of Claim 1, further comprising the step
of enabling a user to perform setup of merchant accounts.
20

7. The method of Claim 1, further comprising the step
of enabling a user to receive an email settlement receipt and
confirmation number.

8. The method of Claim 1, further comprising the step
25 of enabling a user to check the status of a ticket on-line.

9. The method of Claim 1, further comprising the step of enabling a user the ability to perform no unwanted trips to the parking or municipal office.

5 10. The method of Claim 1, further comprising the step of enabling a user to perform a settlement transaction without the use of a payment envelope.

10 11. The method of Claim 1, further comprising the step of enabling a user to interface a web portal for performing the traffic citation settlement transaction.

15 12. The method of Claim 1, further comprising the step of enabling a user to perform a toll-free call settling the traffic citation settlement transaction.

20 13. The method of Claim 1, further comprising the step of enabling a user to interface to existing parking management software associated with the issuing authority.

14. A system for settling a parking citation,
comprising:

instructions for providing an on-line parking citation
interface to a user;

5 instructions for connecting said on-line parking citation
interface to a receiving application for receiving a
predetermined minimal set of information relating to a parking
citation;

instructions for connecting said receiving application to
10 a polling application for interfacing with a parking citation
issuing authority;

instructions for communicating said predetermined minimal
set of information with said parking citation issuing
authority in an information protocol usable by said parking
15 citation issuing authority;

instructions for identifying a parking citation from said
parking citation issuing authority associated with said
minimal set of information; and

instructions for electronically transferring funds at the
20 direction of the user from a predetermined electronic funds
source to an electronic account associated with said parking
citation issuing authority for settling said parking citation.

15. The system of Claim 14, further comprising the step
25 of directing settlement instructions from the user to a
financial institution associated with said electronic funds
source for processing approval to electronically transfer
funds from said predetermined electronic funds source to said

electronic account associated with said parking citation issuing authority.

16. The system of Claim 14, further comprising
5 instructions for selecting said information protocols from a set of information protocols associated with said polling application.

17. The system of Claim 14, further comprising
10 instructions for permitting the user to unsuccessfully attempt said step of electronically transferring funds not more than a predetermined number of times.

18. The system of Claim 14, further comprising
15 instructions for enabling a user to perform credit card processing authorization of credit and debit cards.

19. The system of Claim 14, further comprising
20 instructions for enabling a user to perform setup of merchant accounts.

20. The system of Claim 14, further comprising
instructions for enabling a user to receive an email settlement receipt and confirmation number.

25

21. The system of Claim 14, further comprising
instructions for enabling a user to check the status of a ticket on-line.

22. The system of Claim 14, further comprising instructions for enabling a user the ability to perform no unwanted trips to the parking or municipal office.

5 23. The system of Claim 14, further comprising instructions for enabling a user to perform a settlement transaction without the use of a payment envelope.

10 24. The system of Claim 14, further comprising instructions for enabling a user to interface a web portal for performing the traffic citation settlement transaction.

15 25. The system of Claim 14, further comprising instructions for enabling a user to perform a toll-free call settling the traffic citation settlement transaction.

20 26. The system of Claim 14, further comprising instructions for enabling a user to interface to existing parking management software associated with the issuing authority.
